Follow up information to address the sample scenario for a firefighter who has worked for the department longer than on year.

We currently have 4 personnel that participate in the 457 programs. We could have up to 7 personnel if they were all eligible.

Using the information provided by FBC an average of our personnel that could contribute would cost the district an average of \$1100 per employee provided they are contributing 3% or more. This average amount is based on the district's 3% matching contribution on the fire department base salary.
